WOLF TRACK KNIFE / CUT-OFF MACHINES

WOLF/AIRHAWK CUT-OFF:

<u>Style</u>	<u>Motor</u>	<u>Required</u>	<u>Price</u>
AIRHAWK	½ H.P.	90 P.S.I.	\$2,250.00

Standard Model: Airhawk Cutting Head, Guide Rail & Lifters both sides:

48" thru 72" \$2,650.00

78" \$2,755.00

Beyond 78" – Add \$34.00 per foot (or any part thereof)

Standard Model & End Rail:

48" thru 72" \$2,990.00

78" \$3,050.00

Beyond 78" - Add: \$40.00 per foot (or any part thereof)

Standard Model & End Rail Deluxe (Traverses):

All sizes up to 78" \$4,500.00

NOTE: The Transverse section can hold either the Guide Rail or, most commonly, the End Rail. Most operations keep the cutting section near the cloth roll and move the End Rail as the spread length changes. The regular End Rail can be moved by loosening four (4) hand screws, two (2) on each side of the table. What makes the Transverse Rail so appealing is that one operation can move the unit with the lever on the operator side.

One (1) 49" section of Transverse Rail is provided with the Deluxe Model. Additional sections of 49" running length can be purchased by ordering Part No. 4739160. This includes rail for both sides of the table and all hardware such as the table support brackets.

The cost for each add-on section is: \$414.00

WOLF TRACK KNIFE / CUT-OFF MACHINES

Wolf Special Track Knives

	<u>Price</u>
Slim Jim with 1" x 3" Tube Track Carriage	\$2,320.00
Able Cut-off with Tube Track Carriage	
ST-2000	\$2,550.00
ST-5000	\$2,950.00
Tube Track 1" x 3" (Per Foot)	\$ 55.00

NOTE: This special track allows the use of the Slim Jim Carpet Cutter to cut heavy goods or carpeting with exacting accuracy. Also, the Slim Jim has a cutting capacity of 2-1/2" versus 1-1/4" for the Tomahawk or 3/8" versus the Able version. This tube track uses an E-Z glide bearing guided carriage for effortless cutting. This can also be ordered with lifters for an additional \$535.00.

NOTE: Aluminum Able track is \$47.25 per foot up to 78".

78" and beyond is \$55.00 per additional foot or any part thereof.
